OXYGEN NASAL CANNULA

ADULT WITH TWIN BORE

COMFORT. SAFETY. RELIEF.

Divine Health Home Care Oxygen Nasal Cannula is designed to deliver a steady and comfortable flow of oxygen to patients. The twin bore tubing ensures uninterrupted oxygen flow even if the tubing gets kinked or bent.

PRODUCT FEATURES

Twin Bore Technology

Ensures continuous oxygen flow even if the tube is kinked or compressed.

Soft & Comfortable

Made from medical grade, soft and non-toxic material for maximum comfort.

Ergonomic Design

Soft, angled nasal prongs ensure secure fit and reduce nasal irritation.

Adjustable Slider

Easy to adjust for a perfect fit for every patient.

High Safety Standard

Latex-free, DEHP-free and odorless, ensuring patient safety.

BENEFITS

- ✓ Delivers consistent oxygen flow for better therapy.
- ✓ Lightweight and comfortable for long-term use.
- ✓ Minimizes skin irritation and pressure on nose.
- ✓ Ideal for home care, hospitals and clinical use.
- ✓ Suitable for a wide range of oxygen flow rates.

HOW TO USE

- 1 Connect the oxygen cannula to the oxygen source.
- 2 Place the nasal prongs gently into the nostrils.
- 3 Adjust the slider for a comfortable and secure fit.
- 4 Ensure the tubing is not kinked for proper oxygen flow.
